KEMAL PASHA, THREATENS TURK CAPITAL; GREEKS ARE UNABLE TO STOP ADVANCE

(BY CABLE AND ASSOCIATED PRESS.)

LONDON, June 8.—Large military reinforcements have been received by Mustapha Kemal Pasha, head of the Turkish Nationalist government at Angora, and he is threatening to advance on the Black Sea and the Sea of Marmora. The Angora government is said to have taken arrogant attitude toward the Allies. Dispatches containing these statements were featured by London newspapers today.

At dusk yesterday the farthest eastern point of the German salient was extended rapidly to within gunshot of Gliwits, which forms the key to the industrial region of Upper Silesia. As strong infantry forces advanced eastward along the Kłodzka River and the Ujest-Gliwits Highway other groups pushed storn battalions through Olchowka, Chocian, Wydow and Kottulin toward Tost, and taking 17,000 prisoners. At several points the Germans advanced twenty-five miles in the four days fighting.

RAILS ARE CUT.

Southeast of Ujest the Germans occupied the Kandrins-Gliwits Railway for a stretch of six miles. Gross Strehlitz, which is held by French troops, has been surrounded on three sides during the past few days. Its rail communications with Gliwits were cut when the Germans crossed the Gross Strehlitz-Beuthen line during their advance southward.

WATER SHORT IN DENVER.

Breaking of Four Conduits Brings Danger of Famine; Pueblo Cleaning Up.

(BY A. P. NIGHT WIRE.)

DENVER, June 8.—The Platte River in Denver tonight was stationary. The stream, which has inundated a large district in the Glenside-Jones Park and Valverde sections of the city, rose slowly all day, but had reached its crest tonight and unless further heavy rains occur, the danger of great losses here has passed, according to city officials.

FLOOD FUND STILL GROWS.

Contributions of \$453 to The Times fund for the relief of the Pueblo flood sufferers were received yesterday. This makes the total of all cash received \$1462. One of the contributors yesterday was Walt Mason, the Kansas poet, now living in La Jolla.

LATE NEWS.

SHOOT, CAPTURES BANDIT.

Five persons were held up by bandits late last night and one highwayman was captured. Two negroes robbed Thomas E. Wiggins of 609 West Fifth street. Three men held up Mrs. Buxton and 17-year-old son at the door of their home at 672 South Oxford street. They fled just as Mr. Buxton returned home. He chased them for several blocks shooting at them as he ran. Investigating the neighborhood about Flower and Fourth streets, Police Sgt. M. Thornberg surprised a youthful hold-up at work and shot him. At the Receiving Hospital the lad gave the name of Elmer Smith and confessed to Officer Thompson that he had held up E. Cahill.

FEAR FOR WATER SUPPLY.

The big subject of speculation tonight was the water supply. All citizens were urged to conserve water, following the breaking of four of the seven conduits that carry water from the impounding reservoirs to this city. Fear for the safety of the remaining conduits caused the dispatch of many guards to protect bridges over the Platte River on which the conduits rest. The reserve supply of water stored in city reservoirs tonight was 4,000,000 gallons. The three conduits in use have a capacity of 30,000,000 gallons a day while the nominal minimum consumption here, even when no irrigation is in progress, is 10,000,000 gallons.

HUMAN PORPOISE CAVORTS UNDER WATER IN PARIS.

(BY CABLE—EXCLUSIVE DISPATCH.)

PARIS, June 8.—A human fish cavorted under water before a group of French savants, in the huge aquarium at the Trocadero this morning when M. Lallym, submerged for three minutes and 46 seconds, emitting bubbles as though he were breathing, and at the same time eating cherries. The savants took photographs and motion pictures of him while he was going through his performance.

LISSNER IS ON SHIPPING BOARD.

Chairman Lasker Will Get Down to Work Soon.

Names of Appointees Sent to Senate by Harding.

Coast Has Friends Who Will Get Square Deal.

(Continued from First Page.)

Senator Chamberlain was unanimously agreed to. GO TO COMMITTEE. All the other nominations were referred to the committee on commerce and a meeting to consider their confirmation was called for tomorrow morning. Senator Jones expressed the opinion that there would be no delay, and it is possible that they will be confirmed tomorrow or the following day, as it is known that President Harding wants the board to organize at once. Immediately following their organization he expects to have a conference with all the members at the White House and indicate to them what he desires to accomplish through their agency.

Immediately following the sending of the nominations to the Senate, Mr. Lasker made the following statement of his policy: "The men who constitute the new Shipping Board come to their work with a full recognition of the serious situation confronting them. We know the grave condition of the board's merchant fleet built at war prices under the stress of war. We have been told of utter disorganization which exists in the Shipping Board and lack of efficient management, which, it is claimed, has hindered the operations of the fleet. These conditions must be ended. They will be ended. Honesty, efficiency and economy must be the guiding lights of our policy. "We must take this huge corporation, the largest the world has ever known, and make it an institution of which every American will be proud. We have been told that something over 3,000,000 tons of its ships are unfitted to sail the seas and must be salvaged. "The fleet itself, built during the war at the highest prices known, has so it is reported, a liquidation value of maybe only 25 per cent. "Because of the stagnation in world shipping, which followed the signing of the armistice a large part of the fleet is today tied to the docks, the operations of the board entailing a charge on the public treasury of \$70,000,000 monthly. "It will be the first duty of the board to do those things which are necessary to end incompetence and make of the Shipping Board a business institution guided by business principles and measuring up to business standards. The charges on the public treasury must be cut down, and that with all possible expedition, so that this burden on the taxpayers will be alleviated. It may be necessary in accomplishing this at first to tie more ships to the docks. "This initial stage may take a few months, but this should all be the task to which the new board will immediately put itself. "The other side. "All this, however, is the negative side of the situation. The positive side is to build and construct a policy of operation for the merchant marine that will keep the American flag flying prominently on the seven seas. "To do this the Shipping Board requires not only the co-operation of those directly interested in merchant marine, but of business men throughout the world. "The constructive end of the board's work is to inaugurate and put in being a policy that will accomplish this. To this end we must call into co-operation other departments of the government, all those interested in merchant marine, and the manufacturers and financiers of the country. The President has said that the inspiration of private initiative and enterprise must be the guiding principle of the board's work. "The task before the board is unlike any that a governmental authority has ever faced before. It is impossible to lead the public to believe we will undertake what cannot be done. There must be time to survive, to thoroughly learn conditions to prepare the way for reconstruction and reconstruction. We bespeak the patience and cooperation of the public and of Congress during this difficult period, feeling assured that if there are any measures in the measure in which we hope to deserve them, it will be possible to produce results of which the nation will be proud. BUSINESS MUST HELP. "In saying this I have fully in mind that after all the co-operation of our merchant marine effort will depend quite as much—indeed, far more—on the cooperation of the business community, as on the cooperation of the shipping organization. "John Callan O'Loughlin will come to the Shipping Board with Mr. Lasker as assistant to the chairman. Mr. O'Loughlin's long experience in the Washington correspondent, then as acting Secretary of State under President Roosevelt, and later as an official of a large New York export company, peculiarly fits him for the important task he has consented to undertake. "So far as the Pacific Coast is concerned the Shipping Board in the past has given little attention to the needs of the Coast for the reason that its Coast members, Messrs. Rowell and Theall, served only a few months each, and during a time when the board could not function properly. The new board promises much in maritime development of the facilities in the Pacific, and Los Angeles again demonstrates its growth in population, manufactures, commerce and shipping by securing one of the two places on the board allotted to the Pacific Coast. "It is expected here that Mr. Lissner will leave for Washington immediately upon notice of his appointment, and that he will be ready to do his part in the organization and development of the board."

Helping Tempus to Fugit

Advertising is chief hand-maiden to ambition.

And men who are proud of their products are ambitious for their wide dissemination and use.

Without advertising, any surprisingly better commodity will gradually win a following through word-of-mouth recommendation. This may take years to accomplish.

The same result is brought about in a fraction of the time and therefore at a fraction of the cost by general advertising.

It is a phenomenon of to-day that a new mode is adopted simultaneously in Charleston, in Seattle, in San Bernardino and in Bangor, Maine.

The old days of long cycle between the metropolitan usage and ultimate rural adoption are past.

Our whole country adopts its new ideas to-day, together and at the same time.

For national adoption, advertise. It saves time.

Do You Expect to Leave an Estate of \$100,000.00 or More?

What do You Know about Inheritance Taxes?

Your Estate will probably (1) have some gilt-edge securities, (2) some manageable assets and (3) some speculative assets. When your executor takes charge these last two assets at once shrink in value and the gilt-edge assets only remain intact. They are the heart of your Estate and unless you provide a special fund to pay your State and Federal Inheritance Taxes the "heart" will be taken out and sold to pay such taxes. The only solution and protection against such calamity to your heirs is to provide a Life Insurance fund sufficient to pay taxes and cost of probate. May I tell you what your taxes will be, and explain our Inheritance Tax Policy?

New Chairman of Republican Party.

John T. Adams and His Home.

Yesterday at Washington elected John T. Adams of Dubuque, Iowa, as he has twice been elected vice-chairman of the committee.

ADAMS ELECTED CHAIRMAN.

Republican National Committee at Washington Chooses Iowa Man.

(EXCLUSIVE DISPATCH.)

DUBUQUE (Iowa), June 8.—To the late Senator William B. Allison is due the credit for the start in politics that has resulted in the election of his fellow-townsmen, John T. Adams of Dubuque, as chairman of the Republican National Committee. It was in 1899 that his start was made, for in that year Senator Allison drafted Adams to conduct his last primary campaign in Iowa. Today the Dubuque man heads the national committee of his party.

RISE HAS BEEN RAPID. His rise in the political ranks has been rapid. He was elected national chairman of the Iowa Republican party in 1916 and re-elected in 1918 and 1920. He has twice been elected as vice-chairman of the committee.

In 1920, as vice-chairman, he played an important part in the campaign that sent Warren G. Harding to the White House, for it was Adams who was in charge of the western Republican headquarters at Chicago. Party leaders throughout the country recognized the effective work that he did there, Adams has always been a friend and active supporter of Will Hays.

STARTED AS OFFICE BOY. John T. Adams started in 1881 as an office boy at 12 a week with a cash and door manufacturing concern in Dubuque. For the next twenty years he has been president of the same company, which has grown to be one of the largest of the kind in the country.

Adams has gained prominence in his home city where the people generally take great pride in this latest honor that has come to one of their citizens. While having made business success, he has always been deeply interested in community affairs.

As a young man he organized and supported the Young Men's Association, a mission Congregational church, which has since grown into one of the substantial church organizations of Dubuque. For several years he has been one of the city's general hospital. He has always taken a lively interest in the city's schools and served for several terms on the school board.

COUNCIL OF DEFENSE. During the war, he was a member of the Council of National Defense. He directed the Red Cross drive and was, perhaps, the most liberal contributor in the city to the various war funds.

The keen interest of one man in politics was inherited from his father, who was an American of old stock. His mother's people came from New Hampshire and back for nine generations his father's ancestors lived in the little town of Medfield and Franklin, Mass.

The father practiced law in Lowell, Mass., and was a member of the Massachusetts Legislature at the time that Daniel Webster was in the Senate. The family came to Dubuque in 1857 and for years the father served as the prominent member of the Iowa bar. He served Provost Marshal during the Civil War.

LOVER OF GOOD BOOKS. John T. Adams was born in Dubuque on Dec. 21, 1862. He went to the public schools and was graduated from the high school in 1881. He has always been a lover of his home. In his home is to be found one of the best private libraries in the city. His interest in modern languages and reads fluently an English.

He is married and has three children. They are Elizabeth, 17 years old; Susan, 15 years old; and Paul, 13 years old. Mr. Adams is an ardent Republican, but is not much in sympathy with his husband's political activities because they take him from home so much of the time. Their home is a beautiful one, and the home life of the family is ideal.

DUKE AND SOCIALIST CLASH IN DEBATE.

ARGUMENT HEARD IN COMMITTEE-ROOM OF COMMONS.

NOTABLES ATTEND.

(BY CABLE—EXCLUSIVE DISPATCH.)

LONDON, June 8.—A curious incident of the day in the committee-room of the House of Commons tonight where a duke and a socialist met in a debate on industrial unrest, before a crowd composed of members of Parliament and other notables. The Socialist, Mr. Henry M. Hyndman, who is one of the oldest and foremost Socialists in England, and his opponent was the Duke of Northumberland, a member of one of the oldest families in the wealthiest coal and iron country. The arguments on both sides, in the main, were time worn, except in Mr. Hyndman's case, when the strike was the result of a deliberate plot between the government and the mine owners.

INQUIRIES INTO KILLING. (BY A. P. NEWS WIRE.) PUEBLO (Colo.), June 8.—All men to whom Springfield rifles were issued by the Sheriff will be called before the board of inquiry investigating the shooting here last Monday night of E. E. Withers, City Water Commissioner, and president of the Iron City Fuel Company, who was killed while riding through the flood district with his son.

That announcement was made tonight by Col. Patrick J. Hamrock, Adjutant-General, who is in command of military forces here. "It has been determined," said Col. Hamrock, "that Withers was shot with a Springfield rifle bullet. The only men who had Springfield rifles that night were men to whom the Sheriff had issued guns and ammunition. These men will be investigated."

It is understood that the inquiry held today, which was secret, developed the fact that none of the guards near the place where Withers was killed had a Springfield rifle.

MILITARY IN CONTROL. With the arrival of 200 additional National Guardsmen, announcement was made tonight that all civilian guards on duty in the area swept by the floods of last week will be withdrawn immediately and control of the city pass directly into the hands of the military until the emergency has passed. The announcement was made by Col. Hamrock.

city can't be properly managed with both civilian and military authority in a situation like this," Col. Hamrock said. "In this case the military authority must be supreme in police matters."

Col. Hamrock also announced tonight he would place in detention any person found starting fires in rubbish piles. A fire was started near the Union Station today and Col. Hamrock said he understood it was started by an official of the city.

START REFUGEE CAMP. A refugee camp to accommodate several thousand persons was ordered constructed at once. Col. Hamrock has directed Maj. John I. Martin to organize the camp.

A survey of the havoc wrought by the flood was started by the Red Cross. An effort will be made to ascertain the needs of every victim and emergency aid will be given to all persons unable to help themselves. The Red Cross, its officials said, will try to put every family on a self-supporting basis and leave the rest to the local authorities.

Telephone and electric light services were restored in a tentative way today.

One of the difficulties in giving relief is that several carloads of food standing in the railroad yards was destroyed, leaving little surplus. The city each day now must depend entirely on an uncertain railroad service for what it will eat the next day.

LARGE AREA DEVASTATED. Military authorities tonight had before them a report submitted by Capt. J. G. Bennett, a member of an airplane reconnaissance group, in which the captain estimated that an area of 216 square miles in the vicinity of Pueblo had been devastated by flood waters. "The report stated that crops in the district had suffered heavily and in most instances had been destroyed."

Capt. Bennett said that most of the bridges were washed out or badly damaged for a distance of thirty miles up and for the same distance down the river. Buildings, fences and roads also were badly damaged in many places, according to the report. Much live stock was killed also. It is impossible to estimate in dollars the extent of the flood's destruction at this time, it was said.

LITTLE DISEASE DANGER. Although these are "ferry dead" animals lying around in the flooded areas, these bodies are being rapidly removed and the danger of disease, in the opinion of authorities, has been greatly overestimated.

Funerals of the unidentified dead are to start at once. These, officials say, will be quiet and without display.

Mexico Boosts Tax on Gas to Help Pay Debt.

(BY A. P. NEWS WIRE.) MEXICO CITY, June 8.—President Obregon's decree increasing the export tax on petroleum 15 per cent is regarded by the people of Mexico as an important step in the government's policy regarding the foreign debt and as the first material evidence that payments will be resumed, these having been deferred since 1915.

The decree, it is believed, is aimed at the prevention of excessive production, the protection of the nation's oil reserves and at compelling exporters to pay toward the national expenses a proportionate amount of the wealth they are said to be acquiring.

CHICAGO JUDGE MAY SIT IN HIGH COURT.

(EXCLUSIVE DISPATCH.) CHICAGO, June 8.—Federal Judge Baker of Chicago, has been slated by President Harding for appointment to the United States Supreme Court to replace the late Chief Justice White, it was reported today in political circles. Justice Day, according to the reports, is to be elevated to the Chief Justiceship and Judge Baker would fill the gap in the country's highest court.

The same reports also declared that Judge Albert B. Anderson of the Federal District Court at Indianapolis is to be elevated to fill the vacancy caused on the Appeals bench here. It was also rumored that Lewis E. Mason, United States Commissioner here, might take the seat vacated by Judge Anderson.

Judge Baker is 41 years old. He was born in Goshen, Ind., and after being graduated from the University of Michigan, spent in the law with his father in Goshen until he went to the Indiana Supreme Court bench in 1915. He was appointed to the Federal bench in 1919.

Judge Baker, questioned today, said he had no confirmation of the reports.

ceremony in order that the sorrow may be put behind as soon as possible. Maj. J. F. Pierce of the Medical Corps will be in charge of health and sanitation in the refugee camp. A seven-ward hospital is now ready. Col. Hamrock said that will accommodate 1000 persons in case diseases such as smallpox and typhoid fever develop into an epidemic. At present the number of these cases is not menacing, it was said. The Mexican population will be inspected daily by physicians.

A military proclamation was issued today cautioning residents of the south side to use water for cooking and drinking purposes only. In the flooded district water may be used for washing out buildings also.

The City Council issued an announcement establishing a free employment bureau. Wages for labor were fixed at 43 cents an hour and all persons are prohibited by the Council's proclamation from paying more or less than that sum until further notice.

ceremony in order that the sorrow may be put behind as soon as possible. Maj. J. F. Pierce of the Medical Corps will be in charge of health and sanitation in the refugee camp. A seven-ward hospital is now ready. Col. Hamrock said that will accommodate 1000 persons in case diseases such as smallpox and typhoid fever develop into an epidemic. At present the number of these cases is not menacing, it was said. The Mexican population will be inspected daily by physicians.

A military proclamation was issued today cautioning residents of the south side to use water for cooking and drinking purposes only. In the flooded district water may be used for washing out buildings also.

The City Council issued an announcement establishing a free employment bureau. Wages for labor were fixed at 43 cents an hour and all persons are prohibited by the Council's proclamation from paying more or less than that sum until further notice.

CHICAGO, June 8.—One thousand dollars from the International Association of Rotary Clubs was sent today to Pueblo, Colo., for relief of victims of the Colorado flood. The Dayton (O.) club contributed \$500.

YOUNG HOPEFULS HEAR HARDING.

Graduating Exercises Turn into Peace Confab.

President Commends Remarks of Canadian.

Refers to Harmony with the Dominion.

(BY A. J. MONT WHEAT)

WASHINGTON, June 8.—President Harding, delivering a commencement address today at American University, found the subject of world peace occupying so prominent a place on the program that he was prompted to depart from his manuscript and declared for the preservation of peace by sovereign states, without interference of a world "super-power."

The President's remarks followed an address by N. W. Rowell, K. C. of Toronto, who suggested the best contribution North America could make to civilization was "for men

on this side of the water" to stand together behind the movement for peaceful settlement of disputes.

Other speakers who touched on the question of peace were J. J. Jusserand, the French Ambassador, and the general discussion, developed such a trend that Bishop J. W. Hamilton, presiding chancellor, referred to the gathering as a "peace conference."

ALLIES FLAGS RAISED.

Before singing began American, British and French flags were raised over the outdoor speakers' stand.

"I do not think I could let this occasion pass," said the President, "without giving assent to many of the appropriate and appealing things which have been said."

He then spoke of the North American contribution to civilization and to the world, and it occurred to him that the example of two great peoples living side by side in peace, in confidence and in mutual understanding is about the finest contribution that two nations could give to the world.

He said that if all the nations were as honest and unselfish as our republic, there never would be another war. I will revise it and say that if all the nations are as unselfish and devoted to their ideals as the United States and Canada, there never will be another war.

SETTLE CONTROVERSIES.

"If our attention is directed to the United States and Canada have settled their controversies satisfactorily with the world, it is a superior power, but by the exercise of the sovereignty of free peoples dealing with one another, if we can civilize humanity to abiding righteousness and everlasting justice, we will have made a long stride toward the peace the world craves."

With that, Mr. Harding plunged into the prepared address, in which he enjoined all graduates to dedicate themselves to restoring stability in a world where "almost nothing" remains secure from the attacks of iconoclasts.

In introducing the French Ambassador, Bishop Hamilton declared that the American and French armies were pledged to fight in a "marriage bond," which actually was sealed years later in Flanders.

"The bishop has referred to Yorktown," said Mr. Jusserand, in his introduction, "and in those days we represented three nations of Yorktown; one of them, in those days, was the wrong side, but on the right side now. Those three flags are different in the arrangement of colors, but heaven be praised, they are blessed with the same colors, the red, the white and the blue."

Why Suffer from Rheumatism?

Do you know that nine out of every ten cases of Rheumatism are simply rheumatism of the muscles or chronic rheumatism, neither of which require any internal treatment? The pain may be relieved by applying Chamberlain's Liniment, which makes sleep and rest possible, and that certainly means a great deal to any one afflicted with rheumatism.

OAKS HARPOON ESSICK'S MEN.

The Tigers on Blink in the Opening Canto.

Win Love Dashes to Rescue a Little too Late.

Twilight Rally Gets Few Runs but Not Enough.

BY HARRY A. WILLIAMS.
Opportunity didn't skin any machine knocking at the door of the Tigers yesterday.
They had as much chance as a drum major at a W.C.T.U. convention, and looked as much out of place as a side saddle in a pony race.

WIN EMPHATICALLY.
Oakland won, won in the first round, was like a man who is able to put the pie ahead of the soup, eat it up, and went through the game like a typhoon through a wheat field.

The machine which Bill Essick brought from the second division and placed under great advantage, didn't get to functioning until after the first round, and the damage done by the Oakland machine was too severe to be repaired.

Frank ferments it generally early in the game, and he usually gets the most out of it. But today there was no time left for him to do so. He traveled life's road for only two-thirds of an hour, and five runs were across his path. He was warned that the game was in this round, and he went the honor of stopping at the end of the game.

TAKES TIME.
Oakland was ready sooner, some of the pitcher might have been. But today he had to wait for the early morning of the game, and he went the honor of stopping at the end of the game.

HUTCHINSON IS AMONG LEADERS.

American Golfer Turns in Neat Qualifying Score.

British Professionals Have a Distinct Edge.

A Choice Tidbit on Schedule for Today's Play.

BY TED RAY.
(BY CABLE-EXCLUSIVE DISPATCH.)
GLENEAGLES (Scotland) June 8.—America has a three-fold interest in the match play stages of the great professional golf tournament for 1920, the British Open, for among the sixteen players who qualified as a result of fifty-four holes of qualifying play are Jock Hutchinson, Walter Hagen, and Emmet French.

TOOK THE LEAD.
Hutchinson led the Americans easily for the twenty-seven holes today, and nearly led the entire field—an honor which I was permitted to enjoy, thanks to having the fortune of the green.

Hutchinson shared second place for the two-day qualifying tournament with 213, only one stroke behind the leading 212, and his rounds were models of brilliant consistency. Over the eighteen holes of the king's course he took a 74 and a 72, and over the queen's nine took 12 and 14.

Both Jock and Hagen played very fine golf under conditions which prevailed today. Indeed, their aggregates of 195 for today's twenty-seven holes were the best recorded.

Hagen had an aggregate of 220, squalling the record for the course with 71 this morning. There were few mistakes at this round, but it might have been even better but for a few slipped putts.

French took 221 for the four rounds.

(Continued on Third Page.)

CARPENTIER INDULGES IN FEW ROUNDS.

Boxes Three Sessions with Sparring Partners, One of Whom is Mystery.

BY HARRY NEWMAN.
(EXCLUSIVE DISPATCH.)
MANHASSET (L. I.) June 8.—Through secret channels leading into that exclusive training camp of Georges Carpentier, we learned that the French champion indulged in three rounds of boxing with as many sparring mates this afternoon. Paul Journee, we learn, was one of the boxers, and Italian Joe Gans, and the omnipresent Gus Wilson.

Dismissing our voice as best we could, we tried to learn from our informant who the third member of the party was, but the best we could gather about this strange member was that he was nothing more than a mere American fighter and that he was a welterweight.

HIXES FIVE MILES.
The French champion, we also learned, repaired to the road this morning for his daily jaunt, which lasted about two hours, in which time Carpentier and his companions traversed about five miles of Long Island territory. Georges was accompanied by Journee, Italian Joe Gans, and the omnipresent Gus Wilson.

Over the hills in the early hours of the morning, the Frenchman, getting to be quite a familiar figure and natives of this burg are taking advantage of the hours when they are permitted to gaze upon the classic countenance of the French scrapper and his collection of boxing companions which includes, of course, the handsome Gans. Joseph is venerated by the kids along the line because he sure looks a lot like a Frenchman. The Italian looks more like the goods than any other member of the stable.

BOYS ARE THERE.
Flip, the mascot of the Descamps entry, is another popular member with the kiddies. It does not make any difference how early Carpentier takes to the road, there is the usual number of boys out there to look him over.

Carpentier punched the bag for ten minutes this afternoon, during which time he cut loose for fair and had the lighter sphere doing a merry tattoo on the roof of the apparatus. The big sandbag also came in for some attention from the blonde challenger.

JACK'S LEFT TEARS OPEN SANDBAG.

Camp Regulars Get a Good Line on Champion Boxer's Awful Wallops.

BY RAY PEARSON.
(EXCLUSIVE DISPATCH.)
ATLANTIC CITY (N. J.) June 8.—There are a lot of fellows around Atlantic City who would miss a meal rather than fail to appear at the Airport camp to watch Jack Dempsey in his workouts. They are "regulars" in all that the term implies and they watch every move of the champion.

They gather at the ringside in the airplane hangar and exchange views with those standing near and today they had something to talk about. The buzzing started when Dempsey, sweating and tearing into the big sandbag, ripped it open with a mighty left hander. Some of the ringers like to refer to the sandbag as "Georges," chiefly because the big bag weighs just about the same as the European champion.

PUNCHING HARD.
The fair sex is beginning to flock into the Airport for the workouts and they make up a good part of the daily attendance. Always they land early and every one wants to shake hands with the champion. Jack doesn't care for this and the camp attendants keep their peepers open to stall off the feminine admirers.

BUILDS HOUSE.
Dempsey indulged in a few smiles this morning because he was interested in something far removed from pugilism. He knocked off more than two hours of the morning building a dog house for his quartet of pets. He built the house himself, then with the assistance of Mike Trant, made a wire inclosure for it. He seemed to get more joy out of driving nails than he does in driving in those piling-driving nails in the ring.

The first thing Jack did this morning was to get out on the road and do six miles. Then he built the dog house and played cards to kill time until 2 o'clock, which is the scheduled hour for training work. Every evening Dempsey, Teddy Hayes and Trant take a six-mile walk before Dempsey turns in for the night at 8:30 o'clock.

Thomas C. Hitchcock, Jr., No. 2;
J. Watson Webb, No. 3;
and Milburn, back.

CALLS DEMPSEY "BIG BUM."

Representative Gallivan Wants Uncle Sam to Stop the Title Fight.

(EXCLUSIVE DISPATCH.)
WASHINGTON, June 8.—Denouncing Jack Dempsey as "a big bum" who dodged the draft, Representative Jimmy Gallivan of Massachusetts introduced a resolution in the House today to stop the world's championship prize fight until Congress grants a bonus to the veterans of the World War. Gallivan contended that Chicago bankers, Pittsburgh steel magnates and Wall-street brokers who last winter swamped Congress with protests against the soldiers' bonus are now falling over each other trying to purchase tickets, representing millions of dollars, for the big prize fight. In introducing the resolution Gallivan set forth his views as follows:
"The millions which the Dempsey-Carpentier fight will cost the American public could very easily be devoted to adjusting the pay of the real fighting men, namely, the young chaps who went into the Army and Navy of this country in the recent World War. It is a notorious fact that Dempsey showed himself to be a big 'bum' in that war when he dodged the draft. The men who will pay \$50 for a ringside seat to look at these two fighters overwhelmed members of the last Congress with their letters to protest against paying a mere pittance of a soldier's bonus to real champions."

MILLE LENGLEN IS A WIZARD WITH RACKET.
Mille, Lenglen, the skillful tennis player, is 22 years of age. She won the championship of Picardy when 14 years old. In 1919 she won every event in which she competed on the Riviera without loss of a set and also the singles and doubles championships at Wimbledon, Eng., defeating Mrs. Lambert Chambers in the singles championship at Wimbledon, the doubles with Miss Ryan and the mixed doubles with Gerald Patterson, the Australian. She also won the gold medal at the Olympic tournament.

PIGEON RACE SUNDAY.
Next Sunday the Southern California Racing Pigeon Club will pull off a race for yearling birds. The race, which is 200 miles, will start at Modesto and finish here. A number of pigeon fanciers have entered their birds in the competition.

HUNTER SMITES JAPANESE STAR.

American Tennis Crack Hooks it on Shimidzu.

Mrs. Mallory Too Shifty for English Opponent.

Champ Tilden in Bed Suffering from Back Strain.

(BY CABLE AND ASSOCIATED PRESS.)
BECKENHAM (Kent, Eng.) June 8.—Mrs. Molla Bjurstedt Mallory, American women's singles tennis champion, defeated Mrs. Ford Hutchinson, 6-3, 6-1, in the third round of the open tennis tournament here today.

F. T. Hunter of the United States defeated Zenne Shimidzu, the Japanese star, 6-2, 6-2.

Hunter's victory was the more notable since only William T. Tilden, world's champion, hitherto had defeated Shimidzu in England and it was the first time the Japanese has been seen in opposition to a real hunting net attack.

W. H. Rostford of New York was defeated by the captain of the Indian Davis cup team, S. M. Jacob, 3-6, 6-4, 6-7.

Tilden has not yet appeared in any of the games here. He is in bed suffering from a slight back strain.

GODSHALL AND COFFIN ON WAY TO MADERA.

Harold Godshall and "Cannon Ball" Coffin left yesterday to compete in the Central California tennis championships at Madera. Following the tournament at Madera, the lads will journey to San Francisco to try for the doubles title of Northern California. The Harvard Military Academy racket welders will also be entered in the national tournament, which will be staged at Forest Hills, New York, early in July.

(BY A. P. NIGHT WIRE.)
DES MOINES (Iowa) June 8.—Fred Etchen, Coffeyville, Kan., Chief Wheeler, Pawhuska, Okla., R. Dixon, Cronover, Mo., Frank Hughes, McBridge, S. D., and Guy Ward, Alton, Ill., set a world's record in the State trap shooting tournament today and yesterday in 2000 targets, missing only twenty-five.

GOING SOME.
According to measurements of time made in a car which followed Ruth, the nine-mile stretch to the Polo Grounds was covered in eighteen minutes flat, or a rate of thirty miles an hour.

Ruth had been convicted and punished for going only twenty-six miles an hour.

At any rate, no traffic policeman noticed his speed to the hall park. Magistrate House had threatened to sue.

BAVARIA GIVES UP HER ARMS.

Citizens Surrendering Guns Very Reluctantly.

Commissioner Having His Troubles with Job.

However Allied Ultimatum Being Fulfilled.

(BY CABLE—EXCLUSIVE DISPATCH.)
MUNICH, June 8.—Bavaria is disarming. It is coming hard but the Einwohnenwehr (citizens' armed guard) are giving up their guns one by one and the third important condition of the Allied ultimatum is in course of fulfillment. Today more trucks are being sent throughout Bavaria in every direction collecting from the Einwohnenwehr 2760 machine guns, forty-four field pieces and thirty-four other pieces of heavy artillery.

TO DESTROY GUNS.
The trucks are trundling toward Hamburg, where the guns will be destroyed. This must be done by June 30 and Disarmament Commissioner Norts says the fulfillment of this condition is certain.

To get 220,000 rifles is another story, said Commissioner Norts yesterday. "I can lay my hands on those provided by the department. Such a system of training I believe necessary if we are to cope with increasing crime as it will eventually give us competent investigators for the detection of crimes and the apprehension of criminals."

DISARM RELUCTANTLY.
"If I went into the highlands and tried to force them to give up their rifles they would shoot me. But they understand they must disarm, so gradually they are handing over their arms, but very reluctantly. Some will never deliver their rifles, others will destroy them. You can realize what a struggle it is for the proud mountaineers."

CANCEL LEASE.
It is equally hard for the Bavarians to give up the Einwohnenwehr organization and the orgesch (abbreviated for Einwohnenwehr) which has maintained internal peace in Bavaria since they were given arms to replace those that have been given up. Most of these arms are coming from across the line.

LEGION PLAN KEPT IN NEW BONUS BILL.
REVISED MEASURE IN SENATE. DIFFERS LITTLE FROM McCUMBER'S.

(BY A. P. MONT WIRE)
WASHINGTON, June 8.—The five-fold plan of the American Legion is retained in a new draft of the so-called soldiers' bonus bill completed today by a Senate subcommittee.

The revised bill differs little from the McCumber bill reported during the last session of Congress and is to be submitted soon to the Senate Finance Committee.

A cash bonus, adjust service certificates for loans and deferred payments, vocational training aid and home aid and land settlement aid are its principal features.

The revised bill provides for a \$1.50 a day for overseas and \$1.15 a day for home service, with maximums of \$525 and \$500, respectively, in excess of sixty days' service.

No cash payments would be made before July 1, 1935, and subsequent payments would be spread into ten quarterly installments.

LONDON FULL OF YANK GOBS OF FLAGSHIP.
PITTSBURGH CREW REACHES ENGLAND AFTER CRUISE IN MEDITERRANEAN.

(BY CABLE—EXCLUSIVE DISPATCH.)
LONDON, June 8.—London seems full of good old gobs these days since the U.S.S. Pittsburgh, the flagship of Rear Admiral Albert P. Niblack, commander of the United States naval forces operating in European waters, arrived at Gravesend Monday after a cruise in the Mediterranean.

The Pittsburgh left Cherbourg late in the year and went to Gibraltar, Oren, Nice, Florence, Athens, Malta, Sicily, Naples, and finally came to England.

The officers and men of the fighting vessel have been publishing their own weekly paper called the Salvo, devoted to the adventures of the ship and the general news of the crew.

POSTOFFICE LOOT IS RECOVERED IN BISBEE.
INSPECTORS FIND \$19,000 BURIED ON RANCH AFTER CONFESSION.

(BY A. P. DAY WIRE)
BISBEE (Ariz.) June 8.—Following an alleged confession Monday night by Matt Keaton of this city, that he was implicated in the robbery of the local postoffice on the night of April 3, postal inspectors yesterday recovered \$19,000 in currency that Keaton had buried on a ranch near McNeal, a farming settlement about fifteen miles from here.

According to the alleged confession, Keaton declared that the robbery was a "frame-up," arranged by himself and Lon E. Bailey, former postmaster, now held in Tucson under Federal grand jury indictments for the alleged misappropriation of postal funds.

Daily, according to reports from Tucson, denies the truth of Keaton's statements.

PINKERTON IS BEFORE CHIEFS.

Noted Detective Tells Them of His Views.

Exposition on Crime Proves Interesting.

Beginner is Hard to Catch; New Systems.

(EXCLUSIVE DISPATCH)
ST. LOUIS, June 8.—William A. Pinkerton, noted detective and head of the organization bearing his name, was one of the interesting speakers at the convention of police chiefs, now being held here.

Mr. Pinkerton reviewed crime and criminals and their detection in his address, and advocated the use of new, as well as old, systems of the various departments of the country. He said in part:

"I regret that my time has been so occupied of late that I have not had time to give the subject as much thought as I would wish, but I have tried to draw some useful lessons from the study of each problem so that I might learn my mistakes, errors of judgment, or the mistakes of others."

Although I have devoted nearly sixty years of my life to the detection of crime, and although I have tried to draw some useful lessons from the study of each problem so that I might learn my mistakes, errors of judgment, or the mistakes of others."

That is much more difficult to find the unconvicted sneak thief in the shop or factory, or the novice who is pilfering from the pockets of coats hanging in lockers which belong to his fellow-workman, than to find the professional pickpocket who operates in crowds. It is more difficult to solve the mystery of some homicides committed on impulse in the heat of passion than it is to find the culprit in a calmly calculated killing, or to find the professional burglar or house prowler after he has left the scene of his crime.

You will agree with me, I think, when I say that if these desperate young hoodlums who are now terrorizing all of your cities, these so-called "runners" and "stick-ups" who are robbing banks and merchants in buildings and often in crowded thoroughfares, killing or maiming whoever may resist or stand in their way, it is still active after more than three years of almost uninterrupted success, it is because many of them are beginners in the game. They are still uncatagorized.

We have, in the present generation, witnessed some wonderful strides in the methods of detecting, identifying and apprehending of criminals. The Bertillon and fingerprint systems are new and yet the former is in danger of already becoming obsolete.

Bertillon measurements are rapidly going into disuse because of the superior and simpler fingerprint identification methods. Nevertheless every police official and officer should give careful study and consideration to the portion of the work dealing with vocal photography. While anthropometrical measurements are now becoming obsolete, vocal photography has never been developed to any marked degree in the United States and, as a result, many criminals escape detection because of faulty description.

The training of bloodhounds and police dogs is only now beginning to follow the lines, and is in its infancy in the solving of crime mystery, but is already promising to go to the very heart of the matter. The crime microscopist was unknown to detective work, except as to blood-stain identification, up to 1910. Today in several European cities, and in some American cities, his is one of the most important branches of police detection.

But for general utility in criminal identification, now that there is so much ill-considered and essential photographing of criminals before conviction, the fingerprint system of identification is almost essential. No police department, no matter how small, should be unprepared to take fingerprints in any emergency.

Handwriting experts have extended their field of usefulness and are increasingly helpful, though some of them still attempt to invade the field of the trained detective without any preparatory training in detective work.

The science of handwriting study is yet comparatively new. I hope the time is coming when a competent handwriting expert cannot be persuaded to testify on either side of a case.

But the handwriting expert, the fingerprint expert and the microscopist and the vocal photographer have not learned by experience alone. It is because they have added continually to their fund of information by study that they have attained proficiency, just as it is by continuous study that some detectives have become proficient and have enlarged their sphere of usefulness.

Some effort should be made for the keeping of more adequate records, even to requiring removal of families or individuals from one home to another, from one street or locality to another, or one city to another, to be reported to the police as is done in some countries of Europe.

I believe that police training schools should be established in the cities of this country. The more ambitious within reasonable bounds the better, and though a few cities such as New York, Philadelphia, St. Louis and Berkeley, Cal., have made a start in that direction, it has been that of Berkeley is considered the most comprehensive and ambitious.

The pre-enrollment training of a policeman should consist of a short course in deportment, crime classification, first aid, and accidents, ordinances, felonies and misdemeanors, assaults, homicide, larceny and robbery, burglary, descriptions of persons, buildings and localities, and preliminary investigation upon the discovery of indications that crime has been committed. This training should be continued until the recruit either proves unfit for police work or graduates, when he

will probably have developed an ambition for higher studies than those provided by the department. Such a system of training I believe necessary if we are to cope with increasing crime as it will eventually give us competent investigators for the detection of crimes and the apprehension of criminals."

SPECIAL TRAINS TO ELKS' CONVENTION.

ANTLERED HERD FROM EAST WILL LEAVE CHICAGO JULY 3 FOR LOS ANGELES.

(EXCLUSIVE DISPATCH)
CHICAGO, June 8.—Elks from the East will leave Chicago and Kansas City July 3 and 4 for their annual convention in Los Angeles in sixteen special trains, over the Santa Fe Railroad. The trip will be by way of the Grand Canyon.

In addition to the special trains, special cars will be attached to the regular trains leaving for Los Angeles on those days. It will require 25 engines to haul the Elks to the Golden State and the Harvey dining-car service will be called upon to prepare approximately 22,000 extra meals for the four-day period.

The Santa Fe Railroad is sending four other special trains from Chicago to Los Angeles during June and July for meetings of the National Association of Credit Men, National Association of Builders and Managers, and the Pacific Mutual Life Insurance convention.

High Costs Are Blamed on Material Men.

(BY A. P. NIGHT WIRE.)

DENVER (Colo.) June 8.—Cooperation and joint action by all metal trades unions to resist further wage reductions and increases in working hours, was urged today by James O'Connell, president of the metal trades department of the American Federation of Labor, in his annual address to the department's convention.

Building trades unions also were warned that further wage cuts were not justified by William Spencer, secretary of the building trades department. He placed the responsibility for excessive building costs upon the materials dealers.

Despite the deplorable industrial situation, President O'Connell of the metal trades said that there was no "justification for a second re-

RATE REDUCTION HOPE NOW GONE.

Freight Association Turns Down Plea for Help.

Tells Shippers Impossible to Grant Request.

Says Building Material Men's Theory a Conjecture.

(BY A. P. NIGHT WIRE.)

CHICAGO, June 8.—Notice that "under existing conditions no general reduction in freight rates can be justified or made effective" was sent to shippers today by E. Morris, chairman of the Central Freight Association. The announcement followed a conference of railway officers in Washington last week, with representatives of associations and shippers interested in the transportation of construction and road-building materials, who asked for a general reduction in freight rates on their commodities.

PERSHING ADDRESSES WOMEN IN LINCOLN.

TELLS THEM HARDING HAS TAKEN STEPS TO LIFT EXCESSIVE ARMAMENT BURDEN.

(BY A. P. DAY WIRE.)

LINCOLN (Nebr.) June 8.—President Harding told Gen. Pershing, Chief of Staff of the United States Army, he had taken steps "through diplomatic channels" with the large extension of securing a concord of nations to "lift the burden of excessive armament," the general said. "He told me that he had taken steps in diplomatic channels to get the thing started with that end in view."

Pershing in his address, which was before the State League of Women Voters, said that he preserver limited armament to disarmament.

Pershing said he preferred to take the position between the two extremes of the militarist and the pacifist. He said that the burden of the war and the heavy war debts in most countries now, it would be advisable that some workable plan should be devised to limit expenditures following the war. "It would be folly," he said, "for America to lay down her arms. A permanent peace would be necessary. It should not be hard to convince other nations that some workable plan should be devised to limit armament."

SANTA FE TO RESUME SERVICE TO LAMAR.

DIFFICULTIES IN FLOOD DISTRICT RAPIDLY BEING OVERCOME.

(BY A. P. DAY WIRE.)

TOPEKA (Kan.) June 8.—Unless the unexpected happens, the Atchison, Topeka and Santa Fe line will be open for passenger service as far as Lamar, Colo., at least by Wednesday, J. M. Connell, general passenger agent, announced last night in a statement dealing with flood conditions.

The Santa Fe's flood difficulties in the Arkansas Valley rapidly are being overcome as far west as Lamar, Colo. The worst break in the tracks is near Las Animas.

Freight service will be restored in the flooded districts as soon as the line is clear. J. R. Kuntz, assistant freight traffic manager, announced.

The Colorado flood which is now sweeping through Kansas has spent its force, according to reports received at Santa Fe headquarters last night.

There was little damage to towns in the path of the flood.

WOULD MAKE KILLING OF OFFICER FELONY.

(BY A. P. DAY WIRE.)

WASHINGTON, June 8.—Amendment to the Federal Penal Code to make the killing of a Federal officer engaged in serving a process a felony was recommended to Congress yesterday by Atty.-Gen. Daugherty. The Penal Code, Mr. Daugherty explained, makes it a crime to assault an officer of the United States so engaged, but makes no provision for a killing.

Action for murder, he added, could be taken only by State authorities. Justice Department officials asserted that the Federal prohibition agents operating throughout the country were at present in a position without protection from the Federal government as regards killing under the existing code.

SEEK TO BREAK WILL OF RICH MINING MAN.

SISTER AND NIECE OF JAMES A. MURRAY WHO LEFT \$18,000,000 PLAN ACTION.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, June 8.—Papers in a suit to set aside the will of James A. Murray, former Montana mining man, who left property said to be worth \$18,000,000, have been prepared and will be filed immediately with the County Clerk of Monterey county, California, where Murray maintained his residence, according to L. P. Forestell, a San Francisco attorney, who represents Mrs. Anna M. Flynn, a sister of Murray and Mrs. Agnes S. Doyle, a niece.

The suit alleges the will, which failed to mention Mrs. Flynn or Mrs. Doyle, is fraudulent.

Efforts for a compromise among rival groups of Murray relatives continued today and it was intimated the Monterey suit was merely to safeguard the interests of two claimants and would not interfere with negotiations.

Confidence

can be fundamental, and right. Prosperity, for example, rises and falls somewhat like the tide. It is quite natural that people should incline to confidence when the "tide" is in. FUNDAMENTAL CONFIDENCE is not subject to transient influences. Briefly, it comes from a competent understanding of this country's basic resources, economic certainties and opportunities, as compared to its current problems. FUNDAMENTAL CONFIDENCE always has been, and is now, a dominant feature of the policies of The Merchants National Bank of Los Angeles.

function is Service—service to investors, large and small. We mention today two issues of Bonds into which this House has put its own money after careful investigation. These Good Bonds are new issues in selling in denominations of \$100 and \$1000.

I. 8% First and Refunding Bonds of the Central Arizona Light & Power Co. Can be purchased on a plan to yield you 8.10% income for ten years.

II. First Mortgage 8% Serial Bonds of the Valley Ranch Co. Maturity 1931. A sound "land bond" in which you can have your money at 8% for three, four-up to ten years.

On each of these issues of Good Bonds we have prepared a Circular which sets out the facts—facts that if you study and compare them, will give you a safe basis to invest your savings so that your money will work for you while working for others—while making work for others.

Safety—Certainty—Satisfaction—seven to eight per cent. Circulars on request.

Plenty of Money for Building Loans

Building a new home or apartment-house requires ready money. To expedite its immediate completion we are prepared to make liberal loans. Loans on any projected or recently completed residence or apartment-house that is well located in Los Angeles or its immediate vicinity will be

Closed Immediately Without Delay

Loans to any amount will be made on apartment-houses, but on residences the limit is \$10,000. Each loan is made for 15 years and may be paid off on or after three years without penalty. Interest is payable June 1 and December 1 in each year and principal is repaid by the payment semi-annually of 3 per cent of the face of the loan. When "Building Loans" are made, papers must be recorded before any material is delivered or labor performed. Details will be furnished on application.

NEW YORK STOCK EXCHANGE

(BY A. P. NIGHT WIRE)

NEW YORK, June 8.—Relaxed money rates and recurrent weakness in foreign exchange overshadowed today's stock operations. Call loans eased to 6 1/2%, the lowest in many weeks. Time rates were unchanged, but brokers reported more liberal offerings which extended to bank acceptances and mercantile paper.

Explanation was lacking for the further collapse of international remittances, which amounted to 6 cents in the pound sterling and 10 to 15 cents in French, Belgian, Italian, Swiss, Spanish and Dutch bills. Renewed sale of sterling in London and Paris by German interests, speculative pressure at this center and the Supreme Council's delay in meeting were among reasons assigned for the reaction.

Deals in bonds again were fairly diversified with many cross currents. There was early selling of Liberty issues, presumably because of the new treasury offering, but that group made up part of its loss. Other domestics were irregular and American government issues lost 1 1/2 per cent. Total sales, par value, \$14,575,000.

Gold

Gold is being shipped into this country in such unprecedented quantities that the question has arisen as to whether or not its influence upon our future prosperity will be favorable or adverse.

Inasmuch as this subject is of vital importance, we have attempted to analyze the possible effect of the great gold influx in an article appearing in our

Market Review

The current issue of this publication also contains editorial on the railroad, industrial and oil situation, together with up-to-date analyses of fifteen leading companies in these groups.

LAST DAY

To Buy
HUNTINGTON MIDWAY
AT 10 CENTS

We are reasonably sure of being able to fill orders today prior to closing of business. Indications are that there will be a heavy over-subscription.

When this stock is called on the local curb exchange, June 10th, we predict that the price will be forced up and suggest that you buy as early today as possible.

Money More Valuable

With lower prices, money becomes of greater value—should have greater protection. Consider carefully the safety of your investments. A thorough investigation of the safety of our Full Paid 6% Certificates will reveal safeguards and protective features surprisingly complete and effective. They will account for our record of over thirty years without loss of interest or principal to investors.

You can be sure of 6% and safety. Write or call for folder and financial statement.

The "3 Point" Formula

There are just three points to watch in bond buying.

They have more to do with the success or failure—profit or loss—on your investments than all other factors combined.

Together, they comprise the formula that is being followed by practically every big investor.

You will find the whole story—3 Point Formula and all—in the latest Babson book

"Buying a Bond"

It gives you in five minutes what many have spent years trying to find out.

Best of all, you can employ it at once whether your investments are \$5,000 or \$50,000.

BRITISH NIP
SOVIET PLOT.Discover Scheme to Seize
Constantinople.Reds Concentrated for Raid
into Rumania.Fleet Was to Run Bosphorus
and Marmora Sea.

LONDON, June 8.—The details of a suspected Rematist-Bolshevik plot to seize Constantinople have been discovered by the British secret service, according to a reliable diplomatic source here.

A Red military concentration was reported from the Ukraine two weeks ago, which at the time was believed to be intended for an advance on Rumania. Later, it was reported that the Soviet military had been ordered to take immediate advantage of the situation.

The Bosphorus and the Sea of Marmora would have been carried by a fleet composed of Bolshevik, Turkish and Bulgarian craft, of which there are many lying off the Bulgarian coast. A quantity of floating mines would have been carried to the Bosphorus and the return of the Allied fleet.

In the meanwhile the Bolshevik army would have been transferred to both shores of the Bosphorus, possibly to Yarna. The northern end of the Great army in Asia Minor would have been attacked and annihilated. The Turkish and Bulgarian Communists would have invaded Eastern Thrace and an effort made to secure a first line of defense against Greece and the Balkan states.

The British secret service has been advised that the Bolsheviks have been ordered to take immediate advantage of the situation.

OPERATION.

SEATTLE, June 8.—Representatives of the Shipping Board, the Pacific Steamship Company and the Alaska Steamship Company announced today that nineteen vessels have been fully manned with non-union crews and that with other ships to go into commission soon, early resumption of full service from the port is anticipated for the first of the month.

The Pacific Steamship Company has ten vessels in operation and will start another in a week.

YOUTH HELD FOR
MURDER OF GIRL.MURDER THREATS TO LYNCH
AC-CUSED SLAYER OF ELEVEN-
YEAR-OLD.

BRISTOL (Tenn.) June 8.—Ewen Quillen, aged 19 years, is being held in the Erwin (Tenn.) jail in connection with the murder of an 11-year-old girl, whose body, half nude, was found yesterday morning in the base ball park at Erwin.

Quillen was captured near Kingsport yesterday when bloodhounds followed a trail from the wall of his home. He was taken to Johnson City but fear of mob violence led to his removal to the jail at Erwin.

A mob of several hundred men gathered at Kingsport during the day and more than fifty special police officers were sworn in, but last night the crowds dispersed and the city was quiet.

BANKER IS FREED
BY COURT'S ORDER.

WACOMA, June 8.—Charles Drury today was acquitted in his trial on the charge of having illegally loaned \$200,000 of the funds of the Scandinavian-American Bank and Trust Company.

The court instructed the jury to return a verdict of not guilty on completion of the State's case, declaring it had not been proven that Drury acted illegally. Drury was vice-president and director of the bank, which failed last January.

RAILROAD BUILDER
DEAD IN ENGLAND.

COLORADO SPRINGS (Colo.) June 8.—Dr. William A. Bell, who with Gen. William B. Palmer built the Denver and Rio Grande railroad, died Monday at his home in Fendall, Blitchford, Surrey, Eng., according to word telephoned here by W. J. Bell of Denver. Mr. Bell, who was 74 years of age, was one of the founders in 1873 of the Colorado Fuel and Iron Company, which later became the present Colorado Fuel and Iron Company.

To Flake Off an Old
or Soiled Complexion

A woman need never cease to have a fine-looking complexion, the she can get the simple, mercantile wash habit. The wash actually takes off the old complexion, with all its imperfections and the new and better complexion appears, bears that rare beauty and irrefutable evidence that only the best skin cream possesses. The skin is indeed fresh, healthy and glowing. This is the natural process of flaking off the old and is in most conditions of the skin, the best treatment. CONFERENCE WITH
COAL MEN IS ENDED.OPERATORS TOLD THEY WILL
REGRET IT IF THEY OP-
POSE LEGISLATION.Washington, June 8.—Confer-
ences between the four branches of
the coal industry and Senator Fre-
linghuysen of New Jersey, author of
the pending measures for the sta-
bilization of coal distribution and
prices, broke up today after failure
to reach any agreement.

Senator Frelinghuysen refused flatly to consider a suggestion that the bill providing for the gathering of statistics by the Department of Commerce and Bureau of Mines be broadened to apply to all industries. Senator Frelinghuysen also refused to consider a further conference with a smaller committee representing the industry with a view to drafting amendments to the bill.

The Senator said that he would not low three or four days in which the coal men might propose amendments but after that time he intends to seek action in the Senate.

Senator Frelinghuysen also refused to consider a further conference with a smaller committee representing the industry with a view to drafting amendments to the bill.

READY FOR DASH
TO OIL FIELD.Many Fortune-Seekers Gather
for Dash to North.Canadian Towns Filled with
"Sour Doughs."Mounted Police and Govern-
ment Regulate Entry.EDMONTON (Alta.) June 8.—
Fortune seekers from all parts of
Canada and the United States are
gathering for their dash into the far
north oil fields when navigation
opens about the middle of June.

Edmonton, Fort McMurray and Peace River Crossing, the latter two gateways into the Mackenzie River basin oil fields, are showing signs of great activity with large fleets of river steamers and gasoline boats getting ready for the short summer traveling season.

Edmonton railroad yards are jamming through freight for north bound trains. One passenger train is expected to leave for the north today. The purpose of the trip is to get to the oil fields as early as possible.

The Little town of Fort McMurray has already doubled its population since last fall and with the opening of navigation it is expected to reach four times its previous size. Many new buildings are being erected, while along the banks of the river boats, scows and lumber rafts are being constructed.

Peace River Crossing also is gathering its share of rush. This town is the temporary headquarters of the government parties going into the north country this year in addition to oil prospectors. Ten govern-ment parties are getting ready at Peace River or have already taken the field from this point, including four topographical, three geological and one astronomical survey parties. Another govern-ment party will start on its way to the north country this morning.

GERMAN COIN
ARRIVES HERE.Second Reparations Payment
Reaches New York.Some \$14,300,000 Credited
to France, England.Latest Operation Explains
Exchange Weakness.NEW YORK, June 8.—Germany
made a second payment to the Al-
lies yesterday on reparations ac-
count, turning in to the Federal Re-
serve Bank of New York to the
credit of the Bank of England and
the Bank of France approximately
\$14,300,000, bringing the total pay-
ments in this market on repara-
tions to date to approximately
\$50,000,000.

A week and a half ago the first
payment was made consisting of
\$17,377,000.

Weakness Explained.
The German bank, Deutsche
Bank, which acted as intermediaries in
the first payment handled the opera-
tion. They are correspond-
ents here for the German Reichs-
bank and as such followed instruc-
tions received from Berlin Monday
to pay the funds in to the reserve
bank.

Germany's latest operation on
reparations account explains the
weakness in sterling and other prin-
cipal European exchanges on Mon-
day when rates declined in sensa-
tion. The German Reichsbank was
selling sterling, francs and guilders
in London to buy dollars in order to
pay the reparations account. It was
the offering of sterling and other
exchanges in London which caused
the sterling to fall more than 7 cents
in the pound.

LOS ANGELES

THURSDAY MORNING, JUNE 9, 1921. PART II: 14 PAGES.

POPULATION 1,170,000 (1910-17,000)

DEATH KNEEL FOR OLD SYSTEM AT CITY HALL.

Cryer, Mayor-elect, Sounds Doom of Government by Political Favor; Who Will be Police Chief?

With the ringing declaration that merit, business and executive ability, honesty and integrity will alone be the tests of fitness for appointment to office under his administration, George E. Cryer, successful candidate for Mayor, yesterday in the first public statement since his election Tuesday, sounded the death knell to city government by political favor in Los Angeles. Mr. Cryer's announcement means a new deal at the City Hall, and the Mayor-elect reiterated again the statement that he was elected as a candidate pledged to a single person in Los Angeles as to appointments under his administration.

The outstanding question of interest around the City Hall yesterday was: Who will Cryer appoint Chief of Police? This will be one of the first appointments made by the new Mayor when he takes office. Mr. Cryer is expected to establish a list of names at noon on Tuesday, July 5, and when asked about his choice for this position Mr. Cryer said yesterday that he would study the situation carefully and choose the most efficient man he can find. Whether the new chief is to come from within the department or from outside is a question Mr. Cryer said he will consider with an open mind.

TO SELECT SECRETARY.
 The appointment of a new Chief of Police will be followed by the selection of a private secretary and then will come the appointment of a new Board of Harbor Commissioners of three members. The City Council is expected to establish salaries for all of the members of the board, instead of the president, as now, so that all three jobs will be earnestly sought. It is expected that the salary of the president of the board, a position now held by C. M. Gordon, may be fixed at \$5000 a year.

Mr. Cryer is expected to proceed carefully in the matter of changes in the official family of heads of departments and commissioners. He will seek the advice and cooperation of the City Council before attempting to sweep commissioners right and left out of the job. It is taken for granted, however, that Police Commissioners Barry and Laws will recognize the fact that their resignations will be welcomed by the new Mayor in order to reorganize the board at the same time as the new Chief of the Police Department is chosen. To make the housecleaning complete, the police department heads and secure a working, harmonious organization that will co-operate with the law and to give Los Angeles a clean, efficient police force.

Mr. Cryer left the city yesterday for a brief vacation and plans to return early next week. His departure was not without incident. He was the target for special attacks by the Hearst papers because his refusal to accept their dictation and to lead the entire Councilmanic ticket, yesterday sent the following editorial letter to the Los Angeles Examiner:

Editor of the Examiner,
 Eleventh street and Broadway,
 Los Angeles, Cal.
 My Dear Sir: I desire to thank you most heartily for the aid you rendered me during the recent municipal campaign. I am of the opinion that it was of material assistance to me to have it thoroughly understood by the voters of this city that the Examiner was opposed to my election.

Very truly yours,
 RALPH L. CRISWELL.
 The defeat of Mayor Snyder came in the face of extraordinary efforts made to elect him during the last few days of the campaign, there being 1300 Snyder automobiles in the polls on election day and 2500 precinct workers as compared with 300 Cryer workers and an equal number of volunteers. It is estimated that there was spent for Mayor Snyder's campaign the sum of \$40,000 and between the primaries and election day \$50,000 was expended. As compared with \$4200 spent for Cryer before May 3 and less than \$15,000 between the primaries and election day.

It is estimated that over \$100,000 changed hands as a result of the election, the out-of-pocket expenses offering 2-to-1 on Cryer landing most of the money.

Kemper Campbell, who directed the Citizens' Better Schools Campaign, issued the following statement as to the result of the election: "As I predicted in The Times a week ago, all of the candidates of the Citizens' Better Schools Campaign Committee, including Bettinger, Craig, Millsap, Odell, Shore, Sleeman and York, have been elected. Assisted by a large number of representative civic leaders, this fight was principally conducted by the teachers. Their interest in this matter was entirely unselfish and idealistic. The teachers in our public schools are as a group the highest educated and the best fitted to express their idealism in public life. Heretofore their voice has never been heard. Hereafter it will be heard. The public will receive the full benefit of the combined intelligence and the constructive viewpoint of these most worthy public servants."

Final complete returns showed that the library and harbor bonds had carried, and that all of the other propositions had failed. The prohibition-enforcement ordinance, had failed. The bond issues required a two-thirds majority vote.

A statement carrying an expression of thanks to its supporters in the election was issued yesterday by the executive committee of the League for the Protection of Public Health. Speaking for the committee, Walter Brew, reiterated its stand for the conservation of public health through the methods of the League. It believes to be most efficacious.

FEAR OUTBREAK IN CHINATOWN.

Police Active on Advice that Tong Gunmen Are Due.

Fresno, Bakersfield, Hanford Officers All on Alert.

New Outbursts Expected to Result from Shootings.

New patrols of police officers were rushed into Chinatown yesterday afternoon when word was received from San Diego that gunmen had been sent to this city to avenge the slaying of five Chinamen in Fresno several days ago in a long war. The officers were ordered to keep a close watch on all tong houses and arrest any strange Chinamen coming into Chinatown.

ON GUARD IN FRESNO.
(BY A. P. DAY WIRE.)

FRESNO, June 8.—The Chinese quarter here has been patrolled by nearly a score of police officers, and today a house-to-house search was led by Chief of Police Trux and Sheriff Jones, following the murder last night of Wong Fook, 71 years old, who intended to leave for China next week.

Wong Fook, a member of the Suiy One, was arrested this morning. He is suspected by the police of having paid the gunmen who killed Fook and wounded two other Chinamen. Lee Sin and Wong Toy are booked on a charge of murder. The police believe a repetition of last night's disturbance is probable.

WAR IN BAKERSFIELD.

BAKERSFIELD, June 8.—As a result of a new declaration of war among the rival gangs of Bakersfield's Chinese districts and a shooting affray in New Chinatown, members of the Suiy One gang are barricaded in a joss house in Old Chinatown, while members of the Bing Kong Tong have taken refuge in a joss house in New Chinatown. Both districts are guarded by officers, and all strangers are barred. Authorities are keeping a close watch for invading forces from other towns, fearing that the war may break tonight.

Deputy Sheriff William Taylor was sent to Taft today to investigate conditions and to prevent an outbreak of the long war there.

QUIET AT HANFORD.

(EXCLUSIVE DISPATCH.)

HANFORD, June 8.—An air of peace and quiet reigns over the local Chinese quarter this afternoon, and officers express the belief that a recurrence of last night's outbreak between members of the two warring gangs, in which a clash was narrowly avoided by special officers, is not likely. The police, however, have not relaxed their watchfulness and declare that further threatening signs will be met with immediate arrest of suspected "warriors."

Last night about a dozen Chinamen, said to be Hop Sing, ten, prepared to attack the part of Chinatown occupied by the Bing Kong. Special officers from the Sheriff's office, headed by Deputy Walter Lafone, drove back the attackers.

CRASH VICTIM DIES.

Motorcyclist Who Collided With Auto, Succumbs to Injuries.

William Hone, 17 years of age, of 321 North Brannick street, who was thrown from his motorcycle and seriously injured last Sunday afternoon when his machine crashed into an automobile, driven by H. E. Butler of 1535 New Jersey street, died at the White Memorial hospital late yesterday.

REDLANDS GLAD CRYER ELECTED.

Next Mayor of Los Angeles Once Mail Carrier in the Near-by City.

REDLANDS, June 8.—There was real rejoicing in Redlands today because one of her favorite sons has been chosen for high honors. George E. Cryer, elected Mayor of Los Angeles, was one of the first mail carriers here. When civil service was put into effect, Mr. Cryer, L. O. Hammond and C. A. Wase were postal employees here. Although Mr. Cryer resigned after a year of service and went to Ann Arbor to complete his law course, there are many in Redlands who are proud today because George Cryer had been chosen Mayor of Los Angeles.

BAY CITY WARS ON UNION RULE.

(Continued from First Page.)

spoke of the untold possibilities for foreign trade for Los Angeles. Jonathan S. Dodge, newly appointed superintendent of the State banking system, pointed out the significance of the fact that there are 1,600,000 depositors of the banks of California, showing an average deposit of \$121 for every man, woman and child in the State.

CAN MEET COMPETITION.

Marius De Brabant, chairman of the foreign trade committee of the chamber, told of his trip to Cleveland, where he attended the national foreign trade convention and of the annual meeting of the chambers of commerce of the United States at Atlantic City. "Means are now available for Los Angeles to meet the competition of any other section of the country," he pointed out as his conclusion from having attended these meetings in the East.

Col. Conrado Gaxiola, official representative of the Mexican department of development and resources, spoke of the favorable change of sentiment that has taken place between American and Mexican interests, and added: "For this change of sentiment we should be mutually thankful."

Col. Gaxiola has supervised the establishment of a bureau of Mexican resources and interests on the fourth floor of the Realty Board Building and extended a cordial invitation to the public to visit the exhibit.

Convincingly, Daniel H. Jones, chairman of the All-Year-Round Club, urged the co-operation of all in fostering the fact that Los Angeles is as desirable a place to live in during the summer months as in the winter. He called for uplifted hands of those who agreed with this all-year-round slogan, and a forest of arms responded. "Sell the idea, for people in the East are wont to think of California as a winter resort," he shouted. "It is part of the big \$1,000,000,000 advertising campaign fund that is being arranged for."

FALSE ALARM.

LONG BEACH, June 8.—Miss Mary Agnes Crowder, 20 years old, who was reported missing since last night by her father, a local insurance man, was found today visiting friends in Compton. The disappearance of the young woman was reported to the police of several Southern California cities by her father, who expressed fears that she had been abducted.

HUGE WATER BOND VOTE LOOKED FOR.

El Centro Holds Election Today to Decide on Issue of Two Hundred Thousand.

(EXCLUSIVE DISPATCH.)

EL CENTRO, June 8.—An unusually heavy vote is expected at the election, in this city tomorrow when the question of voting bonds in the amount of \$200,000 for construction of waterworks and distributing system will be the sole issue. Public opinion is about equally divided on the question, the proponents of the bond issue urging it as a matter of economy and efficiency by which adequate fire protection will be one of the biggest benefits. Opposition to any financial measure which will tend to increase the already burdensome load of taxes is the gist of the arguments advanced by those who are actively fighting the proposed improvement program. A mass meeting was held last night under the auspices of the Chamber of Commerce at which both sides of the question were thoroughly discussed. City Trustees and Councilmen, Fire Chief Ferguson and Attorney Ross Hickox explaining the urgent need of the improvement, while A. D. Bucklin, J. Simmon, Dr. William Erkels and Attorney Hill attacked the proposal.

Dressed Her Up, Then She Sought Decree, He Says.

After he had taken his wife, Ramona E. Leigh, on a shopping trip and bought her clothing, Harry Austin Leigh told Judge Walton J. Wood yesterday, she served him with papers in a divorce suit. Later the case was dropped, he said.

Mr. Leigh, who was granted a divorce, testified that when he came back from the war, his wife did not get off her chair to greet him. After this meeting he collapsed and was taken to a hospital, he said.

THIS MAN'S FOOD
DID HIM NO GOODHad Good Appetite; Felt
Well Most of Time.But Was Very Thin and
Couldn't Gain a Pound.System Restored by Tanlac,
Regains Normal Weight.

"I was not a sick man when I began taking Tanlac," said William McNulty, of 734 17th St., Oakland, Cal., "but for some reason or other, I had for fifteen years or more been considerably under my normal weight, and felt so much concern over the fact that I made repeated efforts to find something that would build me up to my old self again."

Mr. McNulty has lived in Oakland nearly all his life. He is a member of the Real Estate Board, office phone, Oakland 1750, and is well-known and respected throughout the city. Mr. McNulty further said:

"It is very evident that I could not assimilate my food properly, for I would eat good substantial meals, but in spite of all I did in the way of foods and medicine I remained under weight, and could not gain a pound."

"Finally, nearly a year ago, after hearing so much about Tanlac for run-down systems, I concluded to see what this medicine would do in my case. So I started taking it and kept it up for three months ago before I began taking on weight. Tanlac kept me with a fine appetite and feeling fine all the time, however, and when I found myself getting heavier I was very much delighted."

"I now weigh one hundred and forty-two pounds, have gained fifteen pounds by taking Tanlac—which is just the right weight for a man my size and build. I could not feel better if I wanted to, for I am as healthy a person as could be found. I'll recommend Tanlac to anybody who wants something to build them up, and if they stick to it as I did I don't believe they will be disappointed."

The Salvation Army's celebrated kettles have been set out at prominent Pasadena corners to receive the pennies, nickels, dimes and quarters of the public for the relief of flood sufferers in Colorado. Ordinarily these kettles are put out only during the holidays, to buy Christmas dinners for the poor.

Remember Grace Nicholson's Famous Pasadena Oriental Shop will keep open all summer. New goods arriving from China every month. The beautiful brocade silks are here now in all colors and plenty of white—also large assortment of enamel sweetmeats, cigarette and gift boxes—bowls, ash trays and plates.—(Advertisement.)

Only three days more of O'Hara & Livemore's removal sale. Big bargains in a few pieces of over-stuffed furniture. Short lengths of drapery materials and odd lots of wall papers. Our new quarters after June 15, 56 So. Euclid. Next door to Overland Club.—(Advertisement.)

EXECUTIVE SESSION.

Present and incoming directors of the Pasadena school board held a joint conference behind closed doors this afternoon, going over the list of teachers who are to be retained or dropped for the coming school year. Teachers that the board decides to drop will be asked to resign and the teachers to be retained will be automatically re-elected for the coming year. There is much speculation among teachers as to what heads are to fall.

Two of the most popular supervisors in the Pasadena schools will go to New York to spend a year in post-graduate work at Columbia University.

Miss Claire Colestock, supervisor of physical education, is to spend a year in further study of that work. George D. Henck, manual training supervisor, and his wife, will leave shortly for New York, where Mr. Henck will take post-graduate study for a year.

Pasadena had two grave fires today, but each was quenched by the fire department before it spread to adjacent dwellings. One fire was at Raymond avenue and Trumbull street, and the other at 288 North Holliston avenue.

COMMENCEMENT AT
WHITTIER COLLEGE.THIRTEEN GRADUATES RE-
CEIVE DEGREES FROM
QUAKER SCHOOL.

LOCAL CORRESPONDENCE.

WHITTIER, June 8.—The eighteenth annual commencement exercises of Whittier College were held this morning, the commencement sermon having been delivered by Dr. Merle N. Smith, pastor of the First Methodist Church of Pasadena. Mrs. Helen Graham Cole sang two groups of songs, and the scripture reading was by Dr. A. Rosenberg, formerly president of Whittier College.

Dr. Harry Noble Wright, president of the college, conferred degrees upon the following: Rev. George Byron Cliff, Mrs. Myrtle Kendall Craft, Miss Josephine R. Oldley, Paul Henry Gifford, Miss Charlotte J. Gordon, Teaney Ulbricht, Miss Mildred Jackson, Gerald C. Kepple, Christine Harold Morosan, Mrs. Fern Workman Stanfield, Vernon Gillespie Stanfield, Clyde Toot and John Clark Winston.

Two hundred and fifty attended the commencement luncheon, which was given by the Woman's Auxiliary to Whittier College, in the social rooms of the church. Dr. Wright introduced Virgil Trueblood, president of the board of trustees of Whittier College, as toastmaster, and brief addresses were made by Dr. Merle N. Smith, who said, among other things, "I would rather see the millions of dollars that may be spent for battleships spent for education, for constructive rather than destructive work. I wish the people of the United States would ask President Harding to declare a holiday in the building of armaments."

Present and incoming directors of the Pasadena school board held a joint conference behind closed doors this afternoon, going over the list of teachers who are to be retained or dropped for the coming school year. QUEEN CONTEST ON
FOR HOME-COMING.

LOCAL CORRESPONDENCE.

ONTARIO, June 8.—With eight fair candidates in the race, the contest for the Queen of Western San Bernardino county to reign at the third annual celebration of Homecoming Day, to be staged in Ontario June 15, in honor of the men from this section who served in the World War, was waxing warm today.

While no vote figures have as yet been given out, campaign managers were claiming liberal support for their respective candidates.

Those in the race for the royal honors include Miss Gladys Crenshaw, Miss Dorothy Drew, Miss Jewel Peacock, Miss Louise Dilworth of Ontario; Miss Ruth Cline, Miss Edna Ledit of Upland, Miss Emma Klusman of Cucamonga and Miss Marjorie Bailey of Chino.

BIG CLASS GRADUATES.

REDLAND, June 8.—The largest class in the history of Redlands High School will be graduated Tuesday night at the exercises in the great outdoor amphitheater. There are 105 young men and young women in the class.

The girls at a meeting some weeks ago decided that no elaborate gowns are to be worn. All dresses are to be of white cotton material.

Will Wood, State superintendent of instruction, is to be the speaker. The exercises will begin on Sunday when the Rev. C. F. Satter of the First Methodist Church will give the Baccalaureate address for the students. Class day exercises will be held Monday at the high school building.

Cameron Dam Fight to be Screened?

Mr. and Mrs. John Dietz.
A complete pardon was granted May 15 by Gov. Blaine of Wisconsin to the defender of Cameron Dam, restoring freedom on the tenth anniversary of his conviction for the killing of a deputy sheriff on Oct. 8, 1911. The Dietz case attracted much attention at the time he was making his fight against the Chippewa Lumber Company and Boom Company. In granting the pardon, Gov. Blaine said that while the proceedings were regular, he believed that there was some doubt as to his guilt. It is rumored that Dietz will take the leading part in a film production shortly to be staged, portraying the life of a homesteader and his troubles.

HEAR WITNESSES IN STOCK-SELLING CASE.

Part of the testimony was heard yesterday before Justice Baird, in the case of C. R. Minton, a member of the Pacific Coast Finance and Audit Company, who is accused of selling stock in the company without permission from the State Commissioner of Corporations. It is charged that on May 8 he sold fifty shares of stock to George Emerson. Testimony adduced by Dep. Dist. Atty. Contello indicated that two weeks after the sale application was made to sell stock, but the permit was held up because the application did not contain a financial statement of the company. John L. Richardson is defense attorney. The case will be continued today.

HOBOS RACE TO THE COAST.

Australian and Yank Out to Win \$500.

Seek to See Which Can Get Farthest on 0.

Millionaire "Bum" Puts Up the Cash Prize.

(EXCLUSIVE DISPATCH.) NEW YORK, June 8.—In an attempt to decide whether the better hoboes are produced by Australia or the United States "Salt Bush Bill" of the Antipodes and "Brakebeam Jack" whose home is anywhere in the United States began a race to the Pacific Coast yesterday. If they were not hoboes the men would be called William James and John Davis respectively.

"Salt Bush Bill" and Brakebeam Jack have been famed throughout hobo population of many countries for a number of years due to their ability to get almost anywhere without having to spend money in the process. A match to see who is the better has been pending for some time.

The contestants are allowed to take whatever route they prefer for the trip, but are not allowed to accept money or to spend any. All their food and transportation must come through the good nature, conscience or otherwise, of the people whom they meet.

The decision to start the contest yesterday came at a meeting on Sunday of the International Welfare Association board at the Labor Lyceum. James Eads How, St. Louis millionaire, who is a leading member of the board, had heard of the rivalry between the two men and he offered a prize of \$500 to the winner. The men expect to take about twenty days for the trip.

REFUSES TO PAY SPEED FINE; JAILED.

Motorists Go too Fast on Ridge Route Curves; Many Cases in Court.

Bert Chesney refused to pay a fine of \$50 for driving his automobile twenty-eight miles an hour on a curve in the Ridge Route where the limit is fifteen miles, following its imposition by Justice Baird yesterday. The court promptly tacked on an alternative of fifty days in the County Jail and the defendant was sent there to serve it.

A. C. Jacks was fined \$50 for going twenty-seven miles an hour around a similar curve on the same road. He paid the fine. When Norman Levin appeared and was about to pay a \$10 fine for a traffic violation he was recognized as a man for whom a warrant had been issued previously for going more than fifteen miles an hour around a corner where the limit is fifteen miles, and he had to pay two such fines. The court had 141 cases before it, taking in \$1500 in fines.

BUSY CHAMBER.

Booster Organization at Sierra Madre Does Things.

(LOCAL CORRESPONDENCE.)

SIERRA MADRE, June 8.—A "Keep the Streets Clean" campaign has been inaugurated by the Chamber of Commerce. Additional receptacles for rubbish are being installed throughout the business section and placards containing a city ordinance covering this phase of civic betterment are being posted at prominent centers.

Resolutions were passed by the chamber endorsing the movement of the Burbank Chamber of Commerce, calling for the establishment of a State constabulary. Great need is felt here for such a force to patrol the many mountain trails running from this city into the rapidly increasing canyon settlements.

The executive committee of the Chamber of Commerce are preparing for publication of a statement showing its rapid growth in membership and its many achievements for civic improvements.

WORD FROM THE FLOOD.

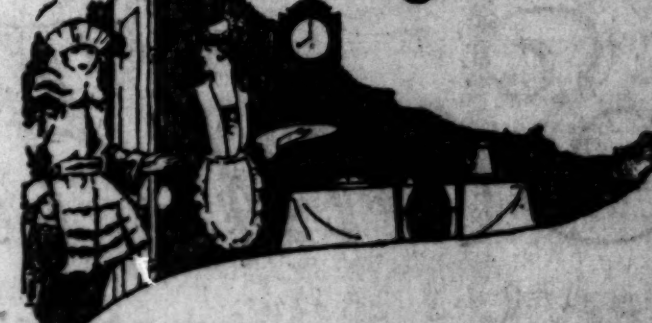

(LOCAL CORRESPONDENCE.)

REDLANDS, June 8.—Mrs. Lucille Crews Marsh, wife of Prof. Charles H. Marsh of the University of Redlands, well-known composer and musician, has received word from her father, who was one of the heavy losers in the Pueblo flood. He is the president of the Crews-Beggs Company, owners of the big department store there.

He says that Pueblo is not one bit disheartened because of the heavy losses suffered, that his company is planning a greater and better store. The Crews-Beggs Company lost heavily although insured for \$50,000 against flood and \$100,000 against fire.

Miss Emma K. Whitton has received word from her parents saying that they are safe. Mr. and Mrs. E. C. Albertson received a telegram from their son, Lester, who left here last week for Sterling, Colo., saying that he is safe and well.
